Cone Detection using Pytorch

- Can be trained on minimal data
- Deep learning
- Used in Formula Student
- Fits in 1hr

Let's get started!

Google Colab (recommended): <https://bit.ly/3Yx3MTj>

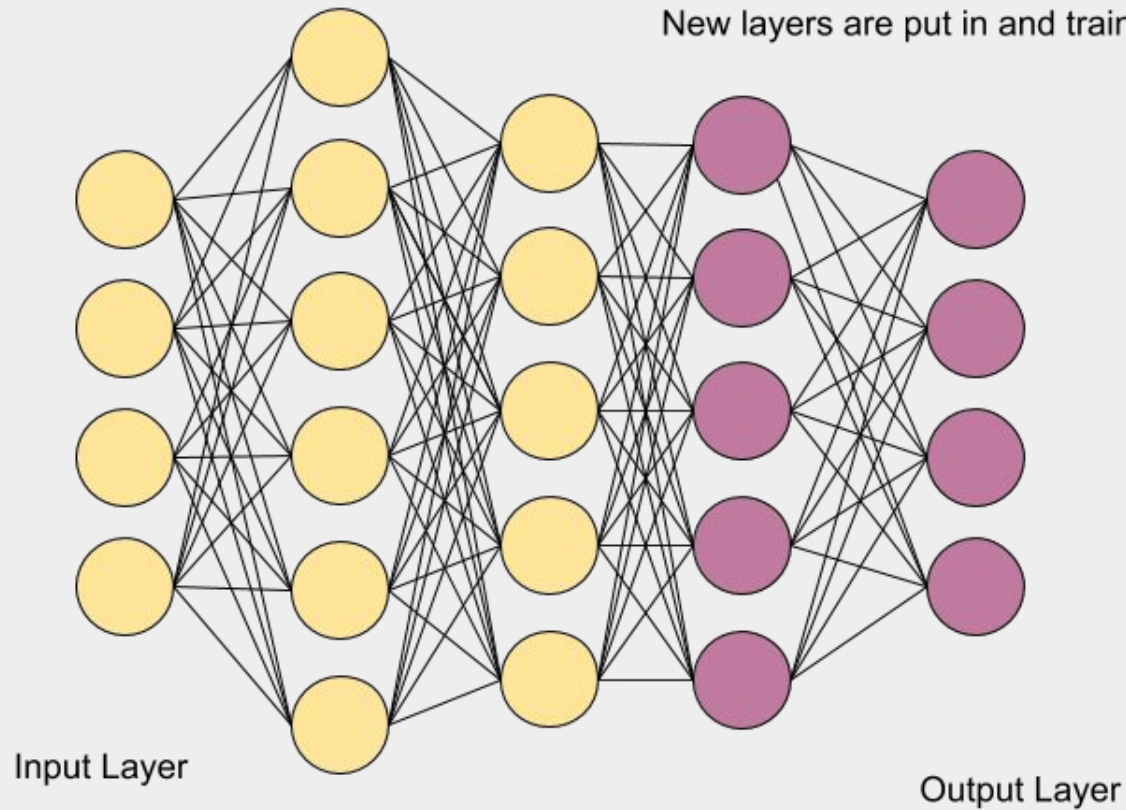

Instructions for running locally: <https://bit.ly/3DKzCE8>

Pretrained

New layers are put in and trained

What Next?

- Online courses (Coursera Andrew Ng)
- YouTube (Andrej Karpathy)
- Start your own team!
(Formula Student AI / F1Tenth)
